Hello Rolin,

I have asked the Enumclaw support staff to send you the files you requested. I also asked them to send you the Sesko trespass file since it occurs in the Bremerton Gasworks action area. I will fill out a trespass identification form for the TRO, so that you can have a file number to reference. The Sesko issues started back in 1997-2002. DNR didn't have file numbers assigned to U&Os at that time.

Regarding the Sesko trespass, Troy Wood may have some additional files on the Sesko trespass because DNR did a derelict vessel removal of three vessels. [Redacted]

I keep a copy of all my recent history sheets online at:

(b) (6)

Feel free to look through those documents. Note: I reference 22-A02332 twice in the sharepoint history sheets. The lease was initially 'Seven Js Investments' and then it was assigned to 'Bridgeview Marina'. I'm still figuring out how I want to store online history sheets and it's a bit of a work in progress. If you have any ideas for online storage, let me know.

I will be going through my digital files and putting them on the BGW link. I will have that done for you by the 28th.

Let me know if you need further assistance.
